

**International Pachyonychia  
Congenita Consortium (IPCC)**  
Hosted by Pachyonychia Congenita  
Project

Tuesday, May 13, 2008  
1:30 pm - 4:30 pm

**Welcome**

Mary Schwartz, PC Project

**Clinical trial update**

Sancy A. Leachman, MD/PhD  
University of Utah

***In vivo* Three-dimensional Skin  
Imaging with a Handheld Dual-  
Axes Confocal Fluorescence  
Microscope**

Wibool Piyawattanametha, PhD  
Departments of Applied Physics,  
Biological Sciences, Electrical  
Engineering, and Pediatrics  
Stanford University

**Treatment of pachyonychia congenita  
with plantar injections of botulinum  
toxin**

Anders Vahlquist, MD/PhD  
Uppsala University Hospital  
Department of Medical Sciences

**Therapeutic silencing of an  
endogenous gene by siRNA cream**

Masahiko Kuroda, MD/PhD  
Department of Pathology  
Tokyo Medical University

**Group and Panel Discussion**

Moderator:

Roger L. Kaspar, PhD  
TransDerm, Inc.

**Panel Members - PC MSAB**

E. Birgitte Lane, PhD  
Institute of Medical Biology Singapore

Sancy A. Leachman, MD, PhD  
University of Utah

W.H. Irwin McLean, DSc, FRSE  
University of Dundee

Dennis R. Roop, PhD  
University of Colorado at Denver

Frances J.D. Smith, PhD  
University of Dundee

**Optional Dinner Activity**

(pre-registration appreciated)
